

APRIL STEAM	Explore it!	Build it!	Craft it!	Count it!
Earth Day	<p>One of the best things we can do for the earth is recycle and repurpose. Listen to this read aloud and then follow these directions to repurpose a plastic bag into a bracelet!</p>	<p>What can you build from repurposed items? Check out these ideas and pick one to try!</p>	<p>Make a painted Earth... You can even use your hands and fingers to get a little messy!</p>	<p>Look at this pictograph worksheet and see how much the friends recycled!</p>
Caterpillars & Butterflies	<p>Listen to this story. Next, discuss the four stages in the life cycle of a butterfly. Optional: Draw the stages!</p>	<p>Build a caterpillar habitat!</p>	<p>Do a butterfly art project and practice symmetry!</p>	<p>Open this mystery picture! You can print and color in the clues OR use this online chart as you follow the directions on the mystery picture and do it digitally!</p>
Rain	<p>Listen to this story about how rain forms and then make rain in a jar!</p>	<p>Can you build a weather tool that measures rainfall? Here is an example of one!</p>	<p>Create a rainy day masterpiece!</p>	<p>Play a rainy addition or subtraction game with a partner.</p>
